## Diffusion Screen

## 漫反射 防火阻燃

### Performance Features

**Material:** polyester
**Light Diffusion:** composed of new materials with high diffusion function and has efficient light diffusion.
**Energy Saving:** the white strip reflects and scatters sunlight to cool and keep warm at night.
**Easy to Fold:** easy to roll up, occupies a small volume, providing more light.
**Good Quality, Long Service Life:** stable performance, stay clean for many years, rich application practice at home and abroad.
**Guarantee:** 5 years

### 性能特点

1.材质：聚酯
2.散射：由具有高散射功能的新型材料组成，具有高效的光散射功能。
3.保温节能：白膜反射和散射阳光降温，夜间保温。
4.易折叠：幕布容易收卷，占用体积小，提供了更多光照
5.品质好，寿命长：使用性能稳定，长久使用仍能保持清洁，丰富的国内外的应用实践。
6.质保：5年

### Performance Features

**Weight:** 64 g/㎡
**Strip Width:** 4mm
**Strip Structure:** 1white, 3diffuse, 1white, 2diffuse
**Standard Width:** 3.2m,4.3m,5.3m，other width can be customized
**Flame Retardant:** YES
**FR：We can add flame retardant function according to customer's demand**

| Sign | Type | DIWMS 30 FR |
|------|------|-------------|
| ☀ | Light Transmission (in sunlight) | 64% |
| ☁ | Light Transmission (when overcast) | 56% |
| ☀ | Shading Rate | 36% |
| ♨ | Energy Saving | 47% |

DIWMS 30 FR

顶点温室专供温室幕布长达15年，为国内外客户提供优质遮阳产品及遮阳系统解决方案。在薄膜温室、玻璃温室、阳光板温室有丰富的实践经验，结合当地的气候给作物提供最适宜的温室幕布。

Top Greenhouse has been specializing in greenhouse shading screens more than 15 years, providing domestic and foreign customers with high-quality shading screens and shading screen system solutions. We have rich practical experience in plastic greenhouse, glass greenhouse, polycarbonate greenhouse, provide greenhouse screens suitable for plant needs according to local climate conditions.
